

## Conference Overview

The Central Texas African American Family Support Conference is filled with interactive workshops and inspirational speakers on mental health, substance use disorder and intellectual and developmental disabilities. This conference is an opportunity to reduce stigma and confront bias while increasing access to care, by connecting individuals with support and resources. Conference participants come together to lift one another up and move towards a healthier future. Because, when people have a strong foundation of physical and mental health, they can reach their full potential.

The conference is hosted by Integral Care and sponsored by community partners from the public and private sectors. We ask and welcome your support to provide this important conference to the community.
